

Low Level Green Laser

532nm Wavelength

10 laser lamps

Eliminate excess fat

The 10D Green light laser with a 635nm diode is a cutting-edge tool for safe and effective fat reduction. This laser technology activates fat molecules within cells, transforming them into energy that the body can utilize, thus diminishing the overall fat content. As a modern solution in the beauty sector, it provides a reliable and efficient method for those seeking enhanced body shaping and cellulite reduction.

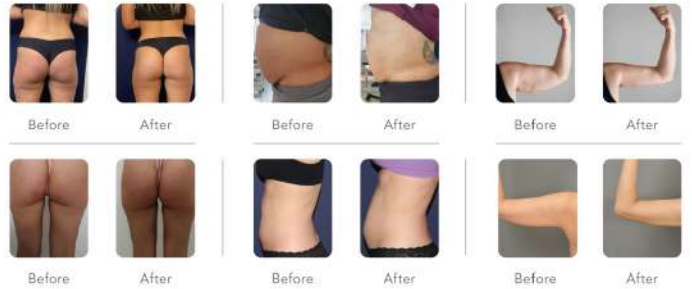

Advantages

- Unique appearance design
- Advanced software
- 12.1 Inch Touch Screen
- An Integrated laser head with multi diode laser
- Foldable on both wings can focus multiple lasers
- Elevator help to adjust laser head automatically
- Elevator help to adjust laser head automatically

360° SCANNING ON AREA

The Treatment Effect

System Specification

Power	120W
Maximum reach of laser head	110cm
Angle adjustable of laser wings	100 degree
Maximum reach of Elevator	500mm
Size of screen	12.1 inches
Power of diode	500mw
Number of diode	10pcs
Voltage	90v-240v
Machine size(cm)	60*110*129
Weight	46KGS
